ZVA-75 XL

VERTICAL AUTOCLAVE

Electric-Heated Vertical Steam Sterilizer

- Automatically controlled by computer, digital display of working status, touch type key.
- Dynamically shows the temperature, pressure time and vacuum rate and the full cycle
- Fully automatic route for water inlet, pulse vacuum, heating, sterilizing, draining, exhausting, vacuum drying.
- 3 times pulse vacuum, which makes the vacuum rate as -0.081mpa , and ensures the high extracting of inner air from dressing, A.B type hollowed appliance.
- With 4 fixed program for appliance, medical dressing, rubbers and fluid, and the user can also set the program as they need.
- Equipped with the PT/TT testing connector, easy to run the testing.
- Multiple pulse vacuum drying after sterilizing, ensure the nice sterilizing.
- Equipped with bacteria filter, ensure the sterile air enter the inner vacuum environment, avoid the second contamination.
- Hand wheel type of quick-open door structure, self-inflating type seal.
- Adopted with immersed heating, with high heating efficiency.
- Steam-water inner circulation system: no steam discharge, and the environment for sterilizing will be clean and dry.
- Automatically shuts off with beep reminding after sterilization.
- Fully high quality stainless, equipped with double stainless steel basket.

Specifications

ZVA-75 XL

Chamber Volume	75L($\phi 400 \times 600$)mm
Working Pressure	0.22MPa
Working Temperature	134°C
Heat Average	$\leq \pm 1^\circ\text{C}$

Timer	0~99min
Adjustment of Temperature	105~134°C
Power	4.5KW /AC220V.50Hz
Overall Dimension	730 × 510 × 1270(mm)
Transport Dimension	820 × 600 × 1380(mm)
G.W/N.W	140Kg/ 118Kg
